MEDIA ROUTES

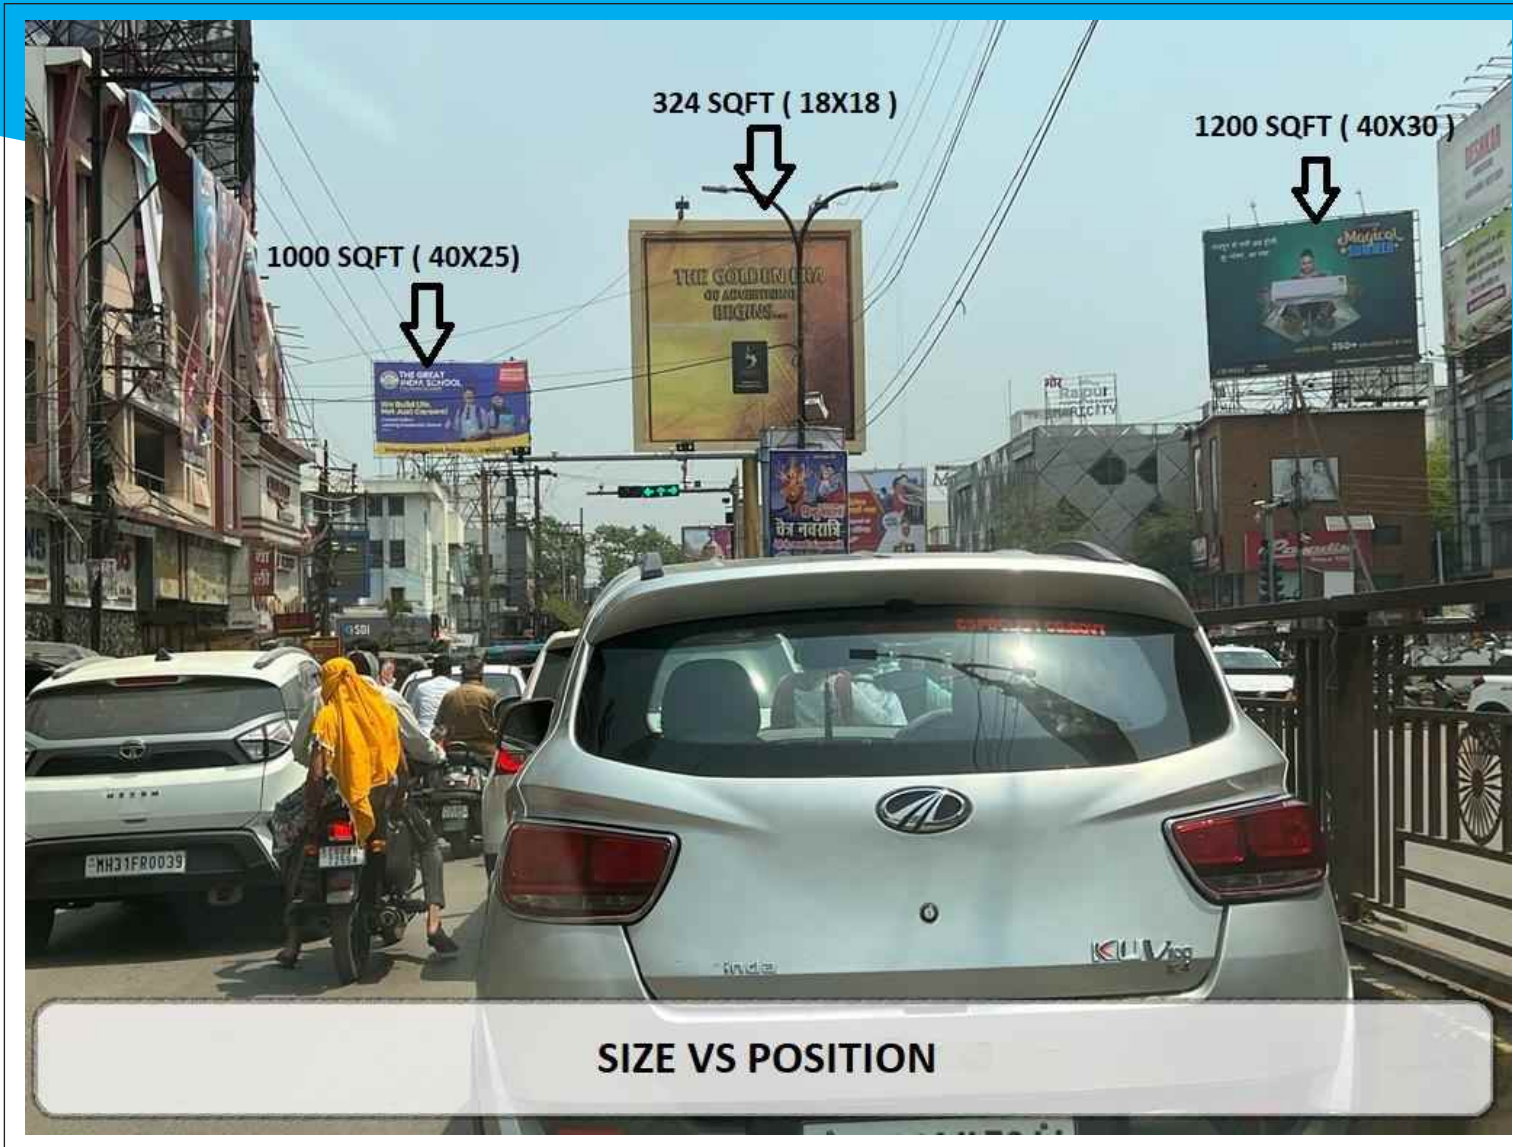

The concept of providing ground –breaking levels of advertising services through Graceful Media, is the brain-child of the Founder-MD- Mr V. Ranjan Purohit. From the very beginning, he has been very specific about being passionate towards what one does in life and this reflects in his work till date. His knowledge and experience in this industry can be fathomed through one of his thoughts behind the specifications of an advertising board:

"Installation of any advertisement board begins from the place of installation, many factors like its quality, rate etc. are decided on the basis of the board's location. In this situation, the positioning of that medium is ignored, whereas an advertisement board of any size can be made visible, with the help of correct positioning."

The 18x18 sized unipoles installed on the divider by Graceful make this idea worthwhile.
